The **Illinois State Alliance of YMCA's (Alliance)** has entered into a five-year marketing agreement with the IHSA and IESA to promote the YMCA in multiple state sport championships, websites and streaming networks. In addition, the Alliance has created a **Skills Competition Task Force (Task Force)** charged with developing and implementing a **Sports Skills Competition (Skills Competition)** to be hosted at local YMCA Associations that will result in finalists competing at the state championships for basketball.

By completing this Pledge Agreement, you are indicating your YMCA's commitment to participate in the Skills Competition as outlined below:

- **The Alliance agrees to:**
  - Provide a structured competition event plan that each local YMCA Association can implement at each of their YMCA branches, including competition rules, and a competition outline of how best to implement the competition.
  - Provide all marketing assets to assist the local YMCA in their promotion of the competition.
  - Provide championship prizes for all finalists.
  - Host all state finalists and their families at the state competitions.
- **Our YMCA agrees to:**
  - Host local 2Ball competitions by January 31, 2027.
  - Report winning scores by 5pm on February 1, 2027.
  - Utilize provided marketing assets to promote the local event.
  - Provide staff support for the state final competition, if a participant from your YMCA makes it to the state finals.
  - Work with the State Alliance and Skills Competition Task Force to ensure local participants are supported as needed to attend the state final competition.
